Professional Summary

- I am a Full Stack Developer skilled in React, Next.js, Express.js, and SQL, with strong problem-solving expertise in C++ and DSA. I build scalable, user-centric web applications and integrate marketing strategies to deliver impactful solutions. Passionate about clean code, innovation, and creating technology that bridges technical excellence with business growth.

Education

G H Raisoni College Of Engineering and Management, Pune **Nov. 2022 – June 2026**
Bachelor of Technology in Computer Science(Cyber Security) *CGPA - 8.24*

S.M.S Annasaheb P. K. Patil Junior College, Nandurbar **April 2021 – March 2022**
Senior Secondary Education, HSC *78.17*

Technical Skills

- **Languages**: C++, SQL, MongoDB, PostgreSQL, Express.js, JWT, React, JavaScript, TypeScript, Next.js, Prisma ORM.
- **Visualization Tools**: Canva, Power Point Presentation.
- **Developer Tools**: Git, VS Code.
- **Other Skills**: Data Structures and Algorithm, Operating System, Object Oriented Programming, Computer Networks, Database Management System, Kali linux.

Projects

Medium Blog Clone Source Code
- *Express.js, Zod, Prisma, PostgressSQL, Typescript, JWT, React*
- Developed a Medium-like blogging platform with secure user authentication using JWT for login, signup, and session management.
- Implemented CRUD operations for blog posts, enabling users to create, read, update, and delete articles.
- Utilized Zod for robust schema validation to ensure data integrity and security across the application.
- Integrated Prisma as an ORM to manage database interactions with PostgreSQL for efficient data storage and retrieval.
- Deployed backend logic on Cloudflare Workers for scalable, low-latency, and serverless performance.

Paytm Web-App Source Code
- *Next.js, Next-Auth, Prisma, PostgresSQL, Tailwind CSS*
- Implemented secure user authentication with NextAuth, supporting email/password and OAuth providers (Google, GitHub).
- Developed a full-stack Paytm-inspired app using Next.js for SSR, API routes, and a responsive UI with Tailwind CSS.
- Utilized Prisma ORM with PostgreSQL for type-safe database operations, managing users, wallets, and transactions.
- Built features like wallet balance display, peer-to-peer payments, and transaction history using Next.js API routes.

Achievements

- Published a research paper titled "Fruit Crop Disease Classification using Quantum Machine Learning" in Springer format.
- Secured Rank 1 in college-level internal presentation and got our team selected for the finals of Amravati Quantum Valley Hackathon, competing among 15 teams.

Strengths

- **Problem Solving Skills**: Ability to analyze complex problems and develop innovative, practical solutions.
- **Technical Proficiency**: Strong expertise in full-stack development, including modern frameworks like Next.js, databases, and APIs.
- **Team Collaboration**: Effective communicator and team player, experienced in working collaboratively in group projects.
- **Adaptability**: Quick learner with the ability to adapt to new technologies and environments efficiently.
